Summer in Solin

SALONA

Prije više od 2000 godina, u jednom od tada najljepših zaljeva na istočnoj jadranskoj obali, uz deltu rječice Jadro nastala je Salona. Zahvaljujući svom dobrom prirodnom položaju i spletu povoljnih povijesnih događaja na razmeđi era postaje metropola rimske provincije Dalmacije.

Unutar zidina podiže se forum, političko i vjersko središte grada, a u neposrednoj blizini je krajem 1. st. sagrađen i teatar. Na krajnjem sjeverozapadu u 2. st. podignut amfiteatar, omiljeno mjesto zabave rimljana. Na suprotnom dijelu Salone sagrađene su velike gradske terme, nezaobilazni dio urbane kulture rimskog grada te episkopalni centar, središte kršćanske zajednice.

More than 2000 years ago, in one of the most beautiful bays on the eastern Adriatic coast, along the delta of the river Jadro, Salona was built. Due to its excellent natural position and favorable historical events at the turn of the era is becoming a metropolis of the Roman province of Dalmatia.

Within the walls raises the forum, political and religious center of the city, and near the end of the 1st century theater was built. In the far northwest in 2nd century the amphitheater has been built, as a popular entertainment place of Romans. On the opposite part of the Salona large thermal spa were built, an essential part of the urban culture of the Roman city as well as episcopal center - the center of the Christian community.

Fall in Solin

GOSPIN OTOK

Crkva Gospe od Otoka, najstarije marijansko svetište u Hrvata, opkoljen rukavcima rijeke Jadro, u srednjem vijeku postaje prvo naselje Hrvata. Na Otoku je u X. stoljeću na mjestu današnje crkve Gospe od otoka (1880.), hrvatska kraljica Jelena sagradila dvije crkve, Blažene Djevice Marije i svetoga Stjepana. Ovo svetište je 1998. pohodio i Sv. Otac Papa Ivan Pavao II., poslavši poruku Solinjanima "Čuvajte blago vjere koje vam je povijest povjerila!".

OUR LADY'S ISLET

The church of Our Lady of the Islet, oldest marian shrine in Croatia, surrounded by river Jadro, in the middle age becomes a first settlement of Croats. Queen Jelena, in the 10th century, on this islet, has built two churches, one dedicated to st.Mary and other to St.Stephen. This shrine has been visited by Pope John Paul II in 1998. when thousands have heard the words: „Nurture the treasure of faith that history has given to you!“

Uz samu rijeku Jadro, istočno od Salone nalaze se ostaci crkava na lokalitetu koji je u puku poznat već više stoljeća pod vrlo zornim imenom Šuplja crkva. Ti ostaci trobrodne bazilike posvećene Sv. Petru i Mojsiju stajali su još na svršetku 17. i početku 18. stoljeća, jer su joj novi tada doseljeni stanovnici Solina dali to slikovito ime. Crkva iz 11. stoljeća, povezana s krunidbom bana Zvonimira za hrvatskoga kralja 1075. godine, sagrađena je unutar velike starokršćanske bazilike po svoj prilici iz 6. stoljeća. Uz crkvu je bio i benediktinski samostan, povezan, možda, s vladarskom kućom pa je vjerojatno to razlog da se nova crkva gradi upravo u staroj i da se u njoj obavlja taj važan čin. Po tome je ova ranoromanička trobrodna bazilika osobito poznata.

šuplja crkva

hollow church

Close by the river Jadro, to the east of Salona, there are remains of churches on the site known for centuries by the local people by the true, descriptive name of Šuplja crkva (Hollow Church). Remains of a three-aisled basilica, dedicated to St. Peter and Moses appear to have existed at the end of the 17th and the beginning of the 18th century, when the newly arrived inhabitants of Solin named them so picturesquely. The church is from the 11th century, linked with the coronation of Zvonimir as a Croatian king in 1075, built within a large early-Christian basilica, probably from the 6th century. Next to the church, there was a Benedictine monastery, possibly connected with the dynasty, which is a possible reason why the new church was built within the old one, to become the site of such an important event. This fact has made this early-Romanesque three-aisled basilica particularly famous.

A šta ću danas kuvat?

I would like to cook
during my stay in Solin!

What are the traditional recipes?

Pastrve alla Jadro

brujet od pastrva

Sastojci: 4 pastrve, odnosno onoliko koliko svita ima ili koliko već možete izist, dvi kapule, 3-4 režnja luka, petrisimul, sickane pelati ili tri do četri friške pome, sol, papar, vegeta, dvi žlice kvasine, po deca uja, dec vina i dec vode.

E, počelo je vrime od korizme, razdobje koje je dušu dalo da se naš čovik malo očisti, da pročisti misli, ali i tilo od sve one teške spize šta je nabacuje u dane svetkovanja i svakog drugog blagovanja. Kada naš svit posti onda uglavnon traži ribu iz mora pa je privrće na milijun malih načina, friga je, poha, lešaje, marinira i slično, ali isto tako sve to može učinit i sa našon solinskon pastrvon. Samo triba bacit ješku u obližnje Jadro (naravno u sezoni ribolova), a ko nema mota za lovit ribu može poč u naše ribogojilište.

No, ovoga puta priselili smo Medinu kužinu u njegov novi restoran „Gašpić“ u prostorima Salonagraditelja Priko vode di nan je još komotnije. I čin san upoznala Medine pomagačice šjora Maru, Branku i Jasu znala san da nećemo samo puno govorit već da ćemo te večeri i dobro papat. Ma kako bi mogle pastrve ne bit dobre kad svoje prste u njihovu spremanju ima i Jase, sestra Kralja gornjeg toka Rike, a sad vi pogodite ko je to.

Prvo je šjora Mare krenila u akciju, pa je u veliku pliću teču s dva uva ulila po deca uja te dodala one dvi isickane kapule na fetice ili na rebarca, kako neki kažu. Kad se to dobro šufiga, odnosno kad kapula samre, kako kaže Medo, onda dodajemo 2-3 usitno nasickana režnja luka i petrisimul, može ga bit i cila vezica. Kad se to malo provrti na vatri ubacuju se i 3-4 pelate iz važa ili friške pome ako ih ima, ali ih prije triba malo nasickat da lakše puste sok.

Onda se pastrve izrižu na tri, četri komada, zavisi kolike su i stave u taj šug da se kuvaju. Slijedi i kućarin soli, isto toliko papra, dva kućarina vegete i dvi žlice kvasine da se riba ne raspadne.

I na kraju se sve zalije sa bevandon kako bi van reka iskusni Pećo, kralj Donjeg toka Jadrta, a to van znači da pastrvi i šugu dodajete još po dec bilog vina , a isto toliko i vode – objašnjava Medo i upozorava na još neke kulinarske cake.

Sve se to vozi – pokazuje Medo i vata oba uva od teče pokazujući nan da se brujet ne miša žlicon već da se ručke vrte ka da timunaješ.

U međuvrimenu nan kuvarica Mare napominje da kad staviš pastrve u teču sve se to kuva još nekih dvadeset minuti. Jakov je napokon počēja pratit svoju kolegicu u tempu šta se tiče papanja, a čak je jedan put samoinicijativno i zavrtija onaj šug u teči da nan ne zagori.

Iz kuharice „ A šta ću danas kuvat?“ – zapisi iz Medine kužine

Trout alla Jadro

trout brodetto

Ingredients: 4 trouts (or as much trout as you and your guests can eat), two onions, 3-4 cloves of garlic, chopped parsley, canned tomatoes or 3-4 fresh tomatoes, salt, pepper, Vegeta, two spoons of vinegar, 50ml oil, 100ml wine and 100ml water.

Well, now that Lent has begun, it is the perfect period to cleanse the mind and also the body from all the heavy food eaten during all those feasts. When our people fast, they mostly want to eat sea fish and find a million and one ways to prepare it: they fry it, crumb it, marinate it etc. The Solin trout can also be prepared in all these ways. You only need to cast a fishing rod into the nearby Jadro River (of course, during the fishing season), and those who don't fish can pay a visit to our trout farm.

This time, we relocated Medo's kitchen to his new restaurant Gašpić, located at the Salona graditelj company premises, in the Solin neighbourhood of Priko vode, where it is even more enjoyable to cook. As soon as I met Medo's assistants, Mara, Branka and Jasa, I knew that that evening we were both going to have a great conversation and eat well. The trout simply has to be amazing if Jasa is involved in cooking the dish because she is the sister of the King of the upper reaches of the Jadro River (I'll leave you to guess as to who I'm referring to).

First Mare poured 200ml of oil in a large pan and added the sliced onions. After the onions were well cooked (i.e. when the onion 'died out' in Medo's words), we added 2-3 finely chopped garlic and parsley (you can use as much as you like). Bring this to the boil and add 3-4 fresh tomatoes or canned pelati - chop them first so that the juices are released. Cut the trout in three or four pieces, depending on their size and add them to the sauce. Add a teaspoon of salt, the same amount of pepper, two teaspoons of Vegeta and two spoons of vinegar to stop the fish from falling apart. Finally, pour bevanda (a local drink made by mixing wine and water) over the dish. Add 100ml of wine and the same amount of water to the trout and sauce, explains Medo, reminding us of some other culinary tricks.

"You are supposed to turn it," demonstrates Medo and grabs the pan by its handles to show that instead of stirring, you turn the pan by the handles. Also, Mare said that once you add the trout to the sauce, cook the dish for another twenty minutes. Jakov finally caught up with his colleagues' eating, and even turned the pan himself to prevent the sauce from burning.

Bob i manistra

... i Dioklecijanove palačinke za desert

Sastojci: (za četiri osobe) po kila boba, 3-4 režnja luka, dve kapule, dec uja, korijen od petrisimula, po vezice petrisimula, 3 do 4 karote, 2-3 pome, 10 deka suvoga, ka recimo pancete, dva šake manistre, sol, papar, dva kučarina vegete. Sastojci za palačinke: Po kila brašna (izmišat popola oštro i glatko), 4 jaja, 1 vanil cukar, dec mlika, po deca nike vode s mjehurićima, jamnice ili slično, čep ruma, a za pečenje uja i namaz koji očete.

Kuvali smo već bob s artičokima, ma sad ćemo van, budući je stađun od ove verdure pripremit bob s manistron. Za četiri osobe dovoljno van je kupit po kila boba, a to vas neće doć ni pet kuna tako da ćete imat, ne samo lipi, već i jeftin obid. Jedino ako očete da van žene s pazara prodaju već očišćen bob jer ga nemate vremena čistit. E, onda ćete morat platit nešto skuplje. Da van bob s manistron ne ispadne puno škur, da van manistra posli ne pocrni onda ćete morat skinit one crne kapice s boba, daje nan kuvarica Jase savjet, dok njezine kolegice iz Medine kužine, Mara i Branka priuzimaju dalje ricetu.

Stavile su sve satojke "u ladno" šta znači da neće posebno šufigavat na uju kapulu, luk, petrisimul, već su sve to stavile u teču. Dakle, na uje su posložile isickano: 3-4 režnja luka, dve kapule, 3 do 4 karote, malo korijena od petrisimula i listove tog začina. Važnije van je stavit korijen nego listove, jer on daje jači vonj - napominju kuvarice. Još se stave i dva do tri friške pome i malo suvoga, komad pancete ili šta slično.

Di prajac nije staviya nogu, nema tu pravog šušta, ni gušta - ubacuje se Medo, odajući tako počast spizi sa suvin meson.

Sve se to onda kuva na vatri jedno 20 minuti, pa se doda onda bob i sve začini sa papron, soli i kučarinon do dva vegete. Reka bi opet Medo: Bojajte jelo po okusu i želji. Svako malo triba provat da bi znali šta ćete još dodat. Jedno deset minuti priya nego je bob gotov, a to ćete najbolje pogodit tako da jopet probate, ubaci se i dva šake manistre, šubiote ili penete ili koje već očete, kako van volja. I to van je to.

Broad beans with pasta

... and Diocletian's pancakes for dessert

Ingredients: (serves four) 500g of broad beans, 3-4 cloves of garlic, two onions, 100ml oil, parsley root, half a bundle of parsley, 3-4 carrots, 2-3 tomatoes, 100g smoked meat, e.g. bacon, two handfuls of pasta, salt, pepper, two teaspoons of Vegeta.

We have already cooked broad beans with artichokes, and now, since this vegetable is in season, we are going to prepare broad beans with pasta. Half a kilogram of broad beans will be enough for four servings, and this will hardly cost you anything, which means that you will end up with a tasty and inexpensive meal. If you buy shelled beans from the market because you don't have time to shell them yourself, they will cost you slightly more. Jase the cook tells us to remove those black caps from the broad beans if you don't want your beans with pasta to become too dark in colour and if you want to avoid your pasta becoming grey.

Mara and Branko from Medo's kitchen began cooking. They put all the chopped ingredients into a pan (3-4 cloves of garlic, two onions, 3-4 carrots, some parsley root and leaves) into a pot with cold oil without cooking them separately. The cook reminds us that it is more important to add the parsley root rather than the leaves, because it has a stronger taste. Then you add two to three fresh tomatoes and some smoked meat (a piece of bacon or something similar).

"There's no real taste where some pork isn't involved," adds Medo, paying tribute to dishes with smoked meat.

Cook the dish for approximately 20 minutes, then add the broad beans and season the mixture with pepper, salt and a teaspoon or two of Vegeta. Try it every once in a while it to see if anything needs adding. Approximately ten minutes before the broad beans are done (which you can tell when tasting them), add two handfuls of pasta (rigatoni, penne or any other type that you prefer). And voila - your dish is done!
